

# RIVERBEND ENVIRONMENTAL EDUCATION CENTER

## Welcome to Riverbend

Tucked away within the busy Main Line, Riverbend Environmental Education Center offers two miles of hiking trails through 30 acres of woodland, meadow and stream habitat. Perfect for young hikers, our trails meander past rolling meadows, forest groves, frog ponds and, of course, our signature stream. At the heart of operations sits The Snider Barn, a fully-renovated 1923 Sears and Roebuck catalogue barn that houses our office, live animal collection, and children's library.

From the main Center, one can opt for a slightly longer hike on Sid Thayer Trail (part of the Bridlewild Trail system) or Read Trail which eventually circles back to Riverbend from the upper portion of Bryn Tyddyn Road. Whether it is to visit our ponds, take a relaxing walk or stop by The Snider Barn, families will surely find something to love at Riverbend.

Riverbend offers many opportunities for children and families to connect with nature. Weekend public programs, summer exploration camp, weekly nature classes and various special events are just a few fun ways we help young families understand, appreciate and respect the natural world. For more information on our various programs, visit our website [www.riverbendec.org](http://www.riverbendec.org) or call (610)527-5234.

*Riverbend Environmental Education Center is a 501 (c)(3) non-profit organization. PA Charitable Organization Registration # 8020.*
